DRAMATIC SOCIETY TRIUMPHS WITH HUMOROUS PRODUCTION

Local People Did Themselves Proud in Presentation of "Ici On Parle Français"—Splendid Vocal and Instrumental Program
--Hockey Club Realizes Fifty Dollars

Great credit is due the New Hazelton Dramatic Club for the unusually high-class entertainment they put on last Friday night in aid of the hockey club. To say that it was a success is mild indeed. Every number of the program was especially good and each character in the play, "Ici On Parle Français," did remarkably well. The Assembly hall was well filled, including a large number from the old town who stayed for the dance and the supper afterward.

Following the entertainment, which lasted until a little after ten o'clock, the hall was cleared of seats and the floor prepared for dancing. The music was furnished by Fred Renworth and Mrs. McLean, flute and piano, and was especially good.

At midnight supper was served in the room adjoining the hall and it was of a very high order. Mrs. George Wali was in charge of the preparation and serving.

of the refreshments and she did her part splendidly. Everyone expressed themselves as highly delighted with the entire evening's program and the visitors are looking forward to the next opportunity to partake of the hospitality of the new town people.

The proceeds from the entertainment will more than wipe off the indebtedness of the hockey club, and the boys feel very grateful to the dramatic club for their assistance.

Before the play the following musical program was rendered:

Piano duet—Mrs. McLean and Mrs. Warner.

Flute solo—F. Renworth, with Mrs. McLean accompanying.

Vocal—"Somewhere a Voice is Calling"—Miss Ariel Westwood. Encore: "Rose in the Bud."

Vocal—"Carrissima"—Mrs. L. B. Warner. Encore: "A Perfect Day."

Flute solo—F. Renworth, with Miss Westwood accompanying.

RUSSIANS ATTACK CZERNOWITZ CITY

Capital of Bukowina Surrounded by a Cordon of Police—Adopting Strict Measures

London, March 3—The Russian artillery has bombarded Czernowitz, the capital of the Austrian crown land of Bukowina," says the Daily Mail's Bucharest correspondent. "The Austrians," the correspondent says, "have placed a rigid cordon of military and police around Czernowitz and nobody is allowed to depart towards the Roumanian frontier. Reports received here state that the Austrians are dealing severely with certain elements of the population. It is reported that numerous secret hangings have occurred and that hundreds of arrests have been made."

Meteorological Report

Following is the record of the local meteorological bureau for the week ending March 3, as observed by W. J. Larkworthy.

Maximum, 44 degrees, the 26.
Minimum, 25 deg. on the 25.
Rainfall .09 inches.
Snow 1 inch.

Rev. T. Ferrier, principal of the Indian school at Brandon, Man., and superintendent of the Indian schools conducted by the Methodist church in Canada, was a guest of Dr. Wrinch while in the district this week.

CITIZENS' MEETING TUESDAY EVENING

Important Business Will Come Up—Election of the Officers—Every Resident Asked to Attend

Next Tuesday night, March 9, the Citizens' Association will meet for the purpose of re-organization and getting in shape for the coming season. There will be an election of officers and the transaction of general business. Anyone with any new business will be particularly welcome. The season of 1915 gives promise of being much more important for the New Hazelton mining district than any heretofore and it is important that the Citizens' Association should get active and assist any movement that is undertaken, as well as start new undertakings. A full meeting of those interested in the welfare of New Hazelton and the district is requested. The meeting will be held in the Assembly hall at eight o'clock sharp.

ALLIES BOMBARD INNER FORTRESS

Fleet Within Two Miles of Narrowest Part of Strait—Turk Garrison is Short of Ammunition

Athens, March 3—Bombarding of the Dardanelles has been resumed by six British and three French battleships. The squadron is now within two miles of the narrowest part of the straits. Allied troops easily scattered the Turk garrison at Kum Kaleh. Six Austrian submarines with destroyers left Pola yesterday for the Dardanelles.

Tiflis, March 3—The Russian

GERMANS BATTLE VICIOUSLY TO TAKE OSSOWETZ FORTS

Russians Repulse Many Attempts to Capture Forts--Austrians Met Disaster in Offensive Movement in the Carpathians--
Russians Take Many Austrian Prisoners

Petrograd, March 4—The war office issued the following statement today:—On March 1 and 2, between the Niemen and the Vistula, the Germans delivered attacks only in the region of Ossowetz. Many attempts of the enemy to approach the fortress were repulsed. In the region of Grodno and along the whole front our troops continued to make progress. We took by assault the village of Kerjen on the left bank of river Amouleff, where we took prisoners ten officers and a number of soldiers and captured two rapid fire guns.

In the Carpathians between the Ondada and San rivers we continue with complete success to beat back formidable attacks of the Austrians. The Germans delivered fruitless attacks in the region of Koziouwka and Rojanka. At the latter point we succeeded in enveloping and annihilating two German companies.

In East Galicia the Austrians who were defending a passage of the river Lomintza suffered a new and very serious reverse. Our troops while fighting crossed the river and repulsed the enemy with heavy loss, capturing many prisoners, including sixty officers, seven rapid firers, and several regiment and division trains.

Caucasian army, which is driving the Turks before it, has reached the estuary of Tchuruk, in Armenia, cutting the line of Turkish reinforcements and supplies from Constantinople and isolating a large section of Turkey.

Paris, March 3—A despatch to the Havas agency from Athens says: "After destruction of fort Dardanus the allied vessels bombarded the inner forts of Hamidieh and Yildiz Tabia. Another bombardment at the same time from the Gulf of Saros side, did serious damage to the peninsula fort Boukali Kale. The town of Yenicheir, near the fort of the same name, was burned."

Later—The Turks are running very short of ammunition for the big guns, and the Austrians are making efforts to rush supplies through to Constantinople.

RUPERT DRYDOCK ATTRACTED SPIES

Two German Reservists Are Arrested in Vancouver Carrying Plans of Prince Rupert Drydock

Vancouver, March 3—D. Mayring and Karl Kastner, two German reservists from Prince Rupert were arrested here yesterday, having arrived on the steamer Prince George on Saturday from Prince Rupert. A search of the prisoners' baggage resulted in finding plans of Prince Rupert's drydock and some photographs.

FRENCH CAPTURE GERMAN TRENCH

Now Control all Earthworks from Perthes to Beausejour—Removing Cash from Constantinople

Paris, March 3—Official—We hold the entire line of German trenches from Perthes to Beausejour. There has been heavy cannonading in Argonne.

Athens, March 3—Funds in the Ottoman and German banks have been removed from Constantinople to Konieh, Asia and Constantinople is preparing for siege.

There is great and a growing dissension among the officers. Placards are posted everywhere denouncing the leaders of the young Turks as traitors.

Back to the Wheels

Dave Miller introduced wheels on Wednesday morning of this week. Sleighing between here and the old town is bad in some places and the stage runs better on wheels than runners. The people are beginning to look for spring and a final break-up of winter. The snow has been going rapidly the last two weeks.

DARDANELLES DEFENCES CRUMBLING BEFORE ATTACK OF HUGE WARSHIPS

Admiralty Gives Account of Latest Operations Against Turkish Stronghold—Fort No. 9 is Silenced by Battleships Canopus, Swiftsure and Cornwallis—
Seaplanes Performing Great Service as Scouts for Vessels

London, March 4th—The admiralty late last night issued the following report:—"Operations in the Dardanelles were resumed at 11 o'clock this morning (Monday) when the Triumph, Ocean and Albion entered the Straits and attacked fort No. 8 and the batteries at White Cliffe. The fire was returned by the forts, by field guns and Howitzers.

"An air reconnaissance made by naval seaplanes in the evening brought the report that a new gun position had been prepared by the enemy, but no guns were erected yet. Seaplanes also lo-

cated surface mines. Monday night a force of mine sweepers, swept within a mile and a half of Cape Kephez, and their work, which was carried out under fire, is reported as being excellent. Casualties sustained during the day were slight, amounting to six wounded. Four French battleships operated off Bulair and bombarded the batteries and the communications. Operations at the entrance to the Straits resulted in the destruction of nineteen guns from 6 to 11 inches, and eleven guns below 6 inches, four Nordenfiet guns and two

searchlights. Magazines of forts 6 and 3 also have been demolished. Further reports state that on Tuesday the Canopus, Swiftsure and Cornwallis engaged No. 8 fort. A heavy fire was opened on them from No. 9 together with field batteries and Howitzers. No. 9 was damaged and ceased firing at 5.30 in the afternoon, and although the three ships were hit, the only casualty was one man slightly wounded. The Russian cruiser Askold has joined the allied fleet off the Dardanelles. This fighting craft is to aid in the operations.

FRIDAY, MARCH 5, 1915

That the road to the high level bridge is one of the most important pieces of work that can be undertaken, and as the appropriations this year are so small it is necessary that only the most pressing work should be done. New Hazelton people are now in a new relation to government appropriations and it is up to them to see that they get some return for the money they are paying into the government coffers.

HON. Wm. Pugsley is a very naughty man. In the Dominion house of commons recently he asked some very impertinent questions regarding the purchase of two submarines by Sir Richard McBride, premier of British Columbia, for the dominion naval service. In the first place Mr. Pugsley wanted to know what right a provincial premier had to purchase submarines for the dominion. He also wanted to know what price was paid for them—what the company got and what the dominion government paid. He had information to the effect, he said, that two cheques were issued by the government, one for \$900,000, while he understood that the sum of \$1,050,000 was mentioned as the purchase price. He wanted to know what was done with the rest of the money. He understood the construction company did not get it. He also had information that the Chilean government, for whom the submarines were constructed, turned them down because they were not up to specifications and were obsolete—the reason was not that the Chilean government was not financially able to take them over, as was announced, because that government has since placed an order for two more submarines of the latest type. Hon. Wm. Pugsley desired that all correspondence, reports and everything in connection with the deal be brought before the house. Mr. Pugsley is a bad man to bring Sir Richard into the limelight in such a manner. It is really to be hoped that Mr. Pugsley's information is in no way correct, because Sir Richard has quite enough explaining to do in British Columbia.

IT was announced the latter part of last week that the finance minister had placed in his budget the sum of \$176,000 for bridges, wharfs, roads and trails for the entire Skeena electoral district, a district that comprises the greater part of northern British Columbia. This is the district that is represented by Wm. Manson, the champion of good roads for the settlers. What a tremendous drop there has been in the appropriations for this district during the past two years. Is it

FOR the first time since New Hazelton was put on the market as a townsite, the lot owners and business places have received assessment notices from the provincial government for their lots. While this is a new burden for the lot owners it should also create a new interest in the welfare of the town. Since the people are now paying all the taxes to the government they should have something to say as to the expenditure of the money that may be appropriated for the town and district. In the past the appropriations for this particular part of the district have been ridiculously small and practically all the improvements that have been made in the town have been made by the people themselves. They have built roads, sidewalks, drains, etc., and have even built roads outside the townsite for the benefit of the general public. The road to the high level bridge, which is only a winter road, and a dry weather road, is used whenever possible by the government teams and the road superintendent and his staff. The high level bridge is always used by the government's outfits when the road to it is passable. Yet that same government has never contributed a nickel towards the construction or maintenance of that road or the bridge. On the other hand they made a deliberate attempt to frighten others from using it, by placing ridiculously low carrying capacity upon the structure. At the same time their own teams have hauled twice the loads over the bridge that the government said was permissible, and not only one load, but two loads at a time and close together. Now that the citizens of New Hazelton and the lot owners in the townsite are being directly taxed they have a right to say where money appropriated for the district is to be expended.

Success in Planting an Orchard Depends on Selecting the RIGHT VARIETIES for YOUR DISTRICT

We have been shipping trees into Northern British Columbia for two years and have made a study of the matter. If you need any information as to best varieties to plant, we are in a position to give it, as we are now growing the most hardy kinds for northern locations

Our facilities for growing trees are of the most up-to-date character, and our growers have had an experience extending over thirty years, which enables us to supply trees that give good results. If you are interested in planting an orchard, large or small, write us for list of varieties we recommend for your district. 80 page catalog free for asking.

BRITISH COLUMBIA NURSERIES CO., LTD.
1493 7th Ave. W., Vancouver. Local Agent, D. Rankin, Andimaul

due to the fact that our noble member has lost his hold on the powers, or can it be due to the waste of money in the years when there was plenty? Can it be that the province, with many millions of surplus a few years ago, has wasted its substance to such an extent that the moneyed institutions refuse to allow it any more? It may be that it is this same reason that prompted the timber and land speculator to refuse to pay the government any more money. No man cares to see his money wasted, even though he is getting something for nothing himself. Is it not time there was a change in the administration of British Columbia affairs?

RUSSIANS REPEL VIOLENT ATTACK

Austrian Attempts to Raise Przemyśl Siege—Germans Wasted Much Ammunition Fruitlessly

London, March 3—A Petrograd despatch to Reuter's agency gives the following semi-official communication regarding the progress of the war:

"The Germans expended a vast quantity of ammunition in futile bombardment of Ossowetz. An Austrian attempt to pierce the Russian front at Lapkow, and thus relieve Przemyśl, resulted only in their suffering enormous losses. The Austrians no longer make attacks in open order, but endeavor to break our lines by advancing in solid masses, which are mowed down by our fire. The situation in Eastern Galicia is developing favorably to us.

The Hazelton Hospital

The Hazelton Hospital issues tickets for any period at \$1 per month in advance. This rate includes office consultations and medicines, as well as all costs while in the hospital. Tickets are obtainable in Hazelton from the post office or drug store; or from the Drug Store, New Hazelton; from Dr. McLean, Smithers; T. J. Thorpe, Aldermere; Dr. Wallace, Telkwa, or by mail from the Medical Supt. at the Hospital.

Items of Interest to the Ranchers

A Valuable Bulletin

"Swine Husbandry in Canada" is the title of Bulletin No. 17 of the live stock branch of the department of agriculture, Ottawa. This publication describes the bacon hog and also discusses his breeding and rearing.

The breeds of swine reared in Canada are described and a history of each is given. An interesting section is devoted to the production of pork on Canadian farms. The information was evidently secured from practical farmers in cheese factory and in creamery districts and in sections

where hogs are raised without dairy by-products.

Economical Machines

Has it impressed itself on your mind, as a practical man, selling farm crops in the form of milk through the medium of cows' manufacturing apparatus, that possibly some of this animated machinery needs overhauling and closely examining. A new machine, running more economically, may save a manufacturer its cost several times over in a very short while. So if your cows are regarded in this light, some may

be found to be very economical producers, and possibly the less said about the capacity of others the better.

Some cow-testing figures given to the dairy division, Ottawa, by dairy farmers prove that some herds of cows produce milk at a feed cost of \$1.45 per 100 pounds, while close by are other herds whose average feed cost of production is only eighty cents per hundred pounds of milk. Again, between two cows in the same herd the cost of feed per pound of butter-fat is frequently found to vary as much as from twenty-three to forty-nine cents.

What is of importance to the average dairyman is this fact, that cow-testing helps to put each cow in the herd on a good paying

basis very quickly. A simple plan of weighing and testing each individual cow's milk soon discovers if any unit machines in the milk-making factory are not in good economical running order. Then plans are laid for keeping the type of cow that makes twenty or thirty dollars or more clear profit above the cost of feed. Does each of your cows do that? It will pay to find out.

In Quebec they have a banking system of special benefit to the farmers. Mr. Desjardins says of this:—"Our present banking system we must concede, was organized to meet the requirements of manufacturing and commerce, not those of agriculture. It is strange that our far-seeing legislators have not seen before this that the banking system tells against the farmer and against the great basal industry of the country. The farmer needs long credits to make the more costly necessary improvements which are slow in bringing in returns. He needs also short time credits to help him market his produce and to tide over an unfavorable period. Such credits are now hard to secure and only at a high rate of interest.

"Now is the time for the government to come to the farmers' assistance, especially when he is being asked to increase production of grain and live-stock. The country will not be satisfied until it has a banking system adapted to agriculture as well as our present system is to commerce, providing, first, long term payments on land; short credits on supplies and three, provision for marketing crops so as to avoid congestion and panics."

In order to raise chickens successfully it is very essential to begin with eggs which will hatch well and produce strong vigorous chicks. If the germs are naturally weak no amount of attention and good care during the incubation of the eggs and the brooding of the chicks will make up for the original lack of vigor. In spite of all that can be done the hatch will be poor, and many of the chicks which do hatch will die. As one cannot determine by an examination of the unincubated egg whether the germ is weak or strong, the only thing that can be done in practice is to select the breeding stock with such care and give it such attention that eggs suitable for hatching must of a necessity result.

"The well-being of a people is like a tree—agriculture is its root, manufactures and commerce are its branches and its leaves; but if the root be injured, the leaves fall, the branches break away and the trees die."—Philosophy of one of the sages of China.

According to a United States bulletin the destruction of fly larvae in horse manure by borax has been fairly successful. In addition to destroying the eggs and maggots, it is said to increase the content of soluble nitrogen and ammonia, although it did not

appear to injure the bacterial. It is not decided whether borax has a cumulative effect.

"The teaching of agriculture is not for the making of farmers, but men and women. It must be more than a school of rural money-making. The teaching of agriculture needed in the schools is for the purpose of training in country life. The country school must make the country worth while. It will teach agriculture as a basis of an ideal life, rather than as a quick way of profits."—Wilson.—The Challenge of the Country, Fiske.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for Oct. 4/15

You won't need to have a moratorium fort to slink behind

Are you keeping pace with the demands of modern progressiveness in its application to business and to business principles? Are you conducting your business in conformity with the dignity that is so essential to success; are you living up to the dignity of your calling? Is your character reflected in all the dealing you have with your customers? If the latter be so, it would be next to impossible for you to place the value to your institution in dollars and cents of having these facts known to those with whom you have, or hope to have, business dealings of all kinds.

This is where GOOD PRINTING comes in

The quality of his printing readily attests to the character of the man, and also establishes his commercial standing. Your business sagacity and the quality of the goods you sell—your very right to appeal for public support—are reflected in your printed matter. Time was when business men were satisfied to do their correspondence on a piece of brown wrapping paper, and break forth in a tirade of abuse because the government demanded that it be enclosed in an envelope. And they got away with it then. But imagine the reception you would get were you to apply for a line of credit from your supply house in a letter written on such paper.

Drop in and see our samples of Better Printing or write for our book of Letterhead Suggestions

OVERHEARD AROUND NEW HAZELTON

Pete Slavin, Buck Flats, was a visitor in town this week.

The many friends of Mrs. Wm. Anderson will be glad to learn that she is now on the road to recovery.

Hugh McLeod left Thursday morning for Vancouver where he will spend a few days before going to his old home in Scotland, where Mrs. McLeod has been for the past year.

G. R. T. Sawle, well known in newspaper circles in northern British Columbia, and particularly in Prince Rupert, has recently purchased the Haileyburian, a newspaper in Haileybury, Ont.

Skating is over for the season at the rink. The lights and all other hockey club equipment will be stored away this week.

There will be a meeting of the Liberals of New Hazelton in the assembly hall on Monday next at eight o'clock. All Liberals can do much to further the cause by attending this meeting and aiding with organization.

Is Moving To Telkwa

Messrs. Broughton & McNeil, the pioneer business of the Bulkley, with headquarters at Aldermere, have decided to move their headquarters to Telkwa and close up their Aldermere business entirely. Construction has been started in Telkwa on a large and handsome new store building which will be modern in all respects. It will be quite the most complete general store in the north.

STRETCHING THEIR CABLE

Geo. Stewart Making Plans for Busy Season at Silver Bell Mine

George T. Stewart and Ernest Lofquist were down from Nine Mile mountain for the week end and took in the hockey club concert and dance. They are busy stretching the cable which is to convey the ore from the Silver Bell group down to where the wagon road is supposed to run when it is completed. By overcoming numerous difficulties they will be able to make a shipment of ore soon after they get their cable in running order.

ARE TAKING OUT ORE

Test Shipment of One or Two Cars to be Made from Red Rose

The Herald was informed this week that at the Red Rose mine they are taking out considerable ore from the upper tunnel and sacking it ready for shipment. Mr. Vaughan-Rhys hopes to get one car and possibly two out before the snow is gone. The idea is to get the smelter returns on the ore. At the same time the work on the new tunnel at a much lower level is being pushed ahead with all speed.

A New Tailoring House

It will be of special interest to the men of New Hazelton and the district to know that the price of clothes—high class, tailor made garments—has taken a big tumble. You don't need to be wealthy to be well dressed these days, and its not due to the war either. W. Muirhead, the tailor, announces that he has received a complete set of samples of the latest patterns and newest goods for men's spring and summer clothes. He also announces that he only asks a fair profit for his labor and his customers will save from ten to twenty dollars a suit. Mr. Muirhead is not only

Coronada Shipping Ore

R. J. McDonell returned Thursday morning from Telkwa where he had been arranging for the shipment of the first carload of ore from the Coronada group on Hudson Bay mountain. He had a separate track put in and the ore will go down this week on its way to San Francisco. This is the first car lot to go from the valley although smaller shipments have been made. Mr. McDonell says the Coronada is looking exceptionally good and it will not be long until another car of ore is ready.

LAND NOTICES

Hazelton Land District—District of Cassiar

Take notice that we, E. S. Denison and L. M. Morrison, of Prince Rupert, occupation ranchers, intend to apply for permission to purchase the following described lands: Commencing at a post planted at the south-west corner of lot 2890, thence south 20 chains, thence west 40 chains, thence north 20 chains, thence east 40 chains to point of commencement, containing 80 acres, more or less.

Lost

About the end of June, 1914, a black horse with the Foley, Welch & Stewart "Diamond 2" mark on left side; weight 1700 pounds; also fore bit in left ear, and a small lump on the right hind leg. Size of collar No. 25. Last heard of in the Bulkley valley. Good reward will be given by J. H. McLEOD, Silver Standard Mine, Old Hazelton. 348
